Pozo La Panza Off-Highway Vehicle Trails

The Santa Lucia Ranger District has numerous OHV routes. These include some of the most popular trails and access routes such as the Pozo/La Panza, Rockstone, Seacliff Ridge, and Figueroa Mountain. This trail system is designed to provide recreation opportunities for OHV, Hikel/Bicyclist, and motorcycle use.

1. POWERLINE
   Starting at the Turkey Flat Saging Area, this trail follows a sandy, hilly route for the first mile. The trail is designed for intermediate riders on dirt bikes and motorcycles. The trail is narrow and steep and should be ridden with caution.

2. HOLLOW CREEK
   Connects with the Powerline route and Black Mountain Road. This trail is designed for intermediate riders only. It is narrow and steep and should be ridden with caution.

3. LA CANADA
   This trail features a unique section located in a small canyon and is relatively flat. The trail follows a creek several times and dead-ends at the mouth of the canyon. This trail is designed for motorcycles only (0.7 miles).

4. TOWER
   This trail begins at the Turkey Flat Saging Area and connects with the Big Canyons trail. The trail is designed for intermediate riders and provides the rider with some challenging sections. Riders must be cautious, and OHV groups must follow the rules posted on the route.

5. LAS CHICHEA CORTADO
   This trail features a unique section located in the Lower Santa Lucia Mountains. It is designed for intermediate riders and provides the rider with some challenging sections. Riders must be cautious, and OHV groups must follow the rules posted on the route.
