Rock Front Off-Highway Vehicle Trails
Santa Lucia Ranger District has numerous OHV routes. These include a number of very popular trails and riding areas such as the Pomo/La Pita Rock Front Buckhorn Ridge and Pajaro Mountains. This trail system is designed to provide recreation opportunities for 4WD vehicles, all terrain vehicles and motorcycles.

29. ESCONDIDO ROAD - Closed
   Currently closed due to private property issues.

30. OVERLOOK drive - Closed
   Currently closed due to private property issues.

31. CHAMISE - Closed
   Currently closed due to private property issues.

32. ALAMO - Closed
   Currently closed due to private property issues.

22. SHAW RIDGE
   This route leaves the Twin Rocks route on a spur ridge that drops into the Alamo Creek drainage. It is a dead end trail. A very steep section of trail near the end of this route and specialized equipment is recommended. This section is recommended for advanced riders. (1 Mile)

25. LOS MACHOS
   This route is a good route for beginners. It is located on the main ridge west of the Los Machos Hills. The route dead ends at a locked gate. (2 Miles)

26. PARADISE
   This route provides access to Paradise Campground and Los Machos route. It is best suited for intermediate riders due to its steep section along the route. The route dead ends at a locked gate. Turn around and go back to the starting point. (2 Miles)

27. BRANCH CREEK
   This route provides access to Big Spring campground, parallel to the Big Rock route and offers a loop ride. (4 Miles)

28. BIG ROCKS
   This trail is mainly used by 4x4s and ATVs. It is located on a main ridge west of the Los Machos Hills. The route dead ends at a locked gate. Turn around and go back to the starting point. (2 Miles)

29. JACO SPRING
   This trail is accessible from the Big Rocks and the Branch Creek route and is well suited for intermediate riders. Some steep sections exist along this route making it a challenge for the less intermediate riders. (1 Mile)

30. TWIN ROCKS
   This route intersects Shaw Ridge and dead ends at a locked gate. The first half mile of this trail is steep. Once on top of the ridge you have excellent views of the Carneros Valley and the Santa Lucia Range. (5 Miles)

31. KERRY CANYON
   This trail provides access through Gabilon Canyon or Sierra Madre. The trail is highly technical and is recommended for advanced motorcycle riders only. (5 Miles)

Buckhorn Ridge Off-Highway Vehicle Trails
32. BUCKHORN RIDGE
   This route runs mostly on a ridge top; it is current and has rock in some spots. This route intersects both Horseshoe Spring Spur and Bear Canyon Loop trail. (4 Miles)

33. HORSESHOE SPRING SPUR
   This trail begins at Horseshoe Campground and intersects the Buckhorn Ridge route. This is a good trail for intermediate motorcycle riders. (1.5 Miles)

34. BEAR CANYON LOOP
   This steep narrow trail leaves the Buckhorn Ridge route and drops down into Bear Camp where it connects to the Bear Canyon trail, connecting back to Buckhorn Ridge route. This trail is for the more advanced motorcycle riders. (0.5 Miles)

35. MADRE
   This is a short, easy to moderate 4x4 route that leaves Sierra Madre Ridge Road and dead ends on the ridge top. (3 Miles)
